Figure 1 consists of 12 bar charts, labeled (a) through (l), each representing a different demographic or socioeconomic category. Each chart displays the percentage of the total sample for that category across four time points: 1990, 1995, 2000, and 2005. The y-axis for all charts ranges from 0 to 100 percent. The x-axis for each chart lists the four years. The categories are: (a) Age, (b) Sex, (c) Education, (d) Employment, (e) Income, (f) Health, (g) Housing, (h) Transportation, (i) Recreation, (j) Food, (k) Clothing, and (l) Other. The charts illustrate various trends, such as an aging population (increase in 65+ age group), changes in employment status, and shifts in income distribution over the 15-year period.
